

Relative Values in Public Health Work, Vol. 6 (Classic Reprint)

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.
(Prof. Loyce Runolfsson Jr.)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *Relative Values in Public Health Work, Vol. 6* About 1,400,000 persons die in continental United States each year. Probably a fourth or a third of these die from preventable causes. In addition, it is asserted, and recent sickness surveys seem to support the claim, that two or three per cent, of our population are, at any one time, disabled through sickness. Then there is the larger number of persons afflicted with illnesses not serious enough to disable but which cause loss of comfort and efficiency. The task of preventing these vast amounts of sickness and death, so far as is possible, is delegated by the public to its health authorities. The latter must decide what parts of the losses are preventable, and must determine how the greatest return in prevention can be obtained with the money available. This is the problem of relative values in public health work. If unlimited funds were at the disposal of health departments the problem of relative values would be one of merely theoretical interest. The administrator would need only to institute all the activities that seemed likely to exert a beneficial effect, and at the close of the year prepare a table of expenditures with regard to the several activities. This list would indicate the relative value attached to different activities when no stone is left unturned, but would be a tabulation of purely academic interest. Quite different is the situation actually confronting health officials. With the scanty funds now at their disposal, and the great variation in effectiveness of different activities, the most careful discrimination must be exercised in making up the department's program. A bad distribution...
