Find critical diagrams of the plantar foot, lateral foot, palmar hand, lateral hand and other aspects. Reflexology is a type of alternative medicine which involves applying pressure to the feet, hands, or ears with the thumb, finger, and hand. These techniques are used without lotion or oil and are based on the claim that our body is a system of zones and reflex areas, with the image of the body on the feet and hands, and that stimulating these areas can cause a physical change in the body. One theory of this therapy is that it works with the central nervous system, based on research that has shown that there exists a neurological relationship between the skin and the internal organs. By stimulating these systems with touch and massage in the correct zones people have seen changes in their bodies ranging from pain relief to increased blood supply.
